Up to 33% more
shelving space
per bay!

Up to 4
additional
shelves

VISTA BAY

STANDARD BAY

Aesthetic Appeal

Our modern and sleek design adds a touch of professionalism to your pharmacy, creating an inviting and trusted atmosphere for your customers.

Organisation

Keeps your pharmacy neat and organised. It's easy for your staff to locate and restock items, improving customer service efficiency.

Adjustability

Customize the shelf heights to accommodate products of various sizes, from over-the-counter medications to beauty and health essentials.

Customization

Tailor the shelving to your unique needs. Add features like lighting, product dividers, and brand signage for a personalized touch.

Improved Security

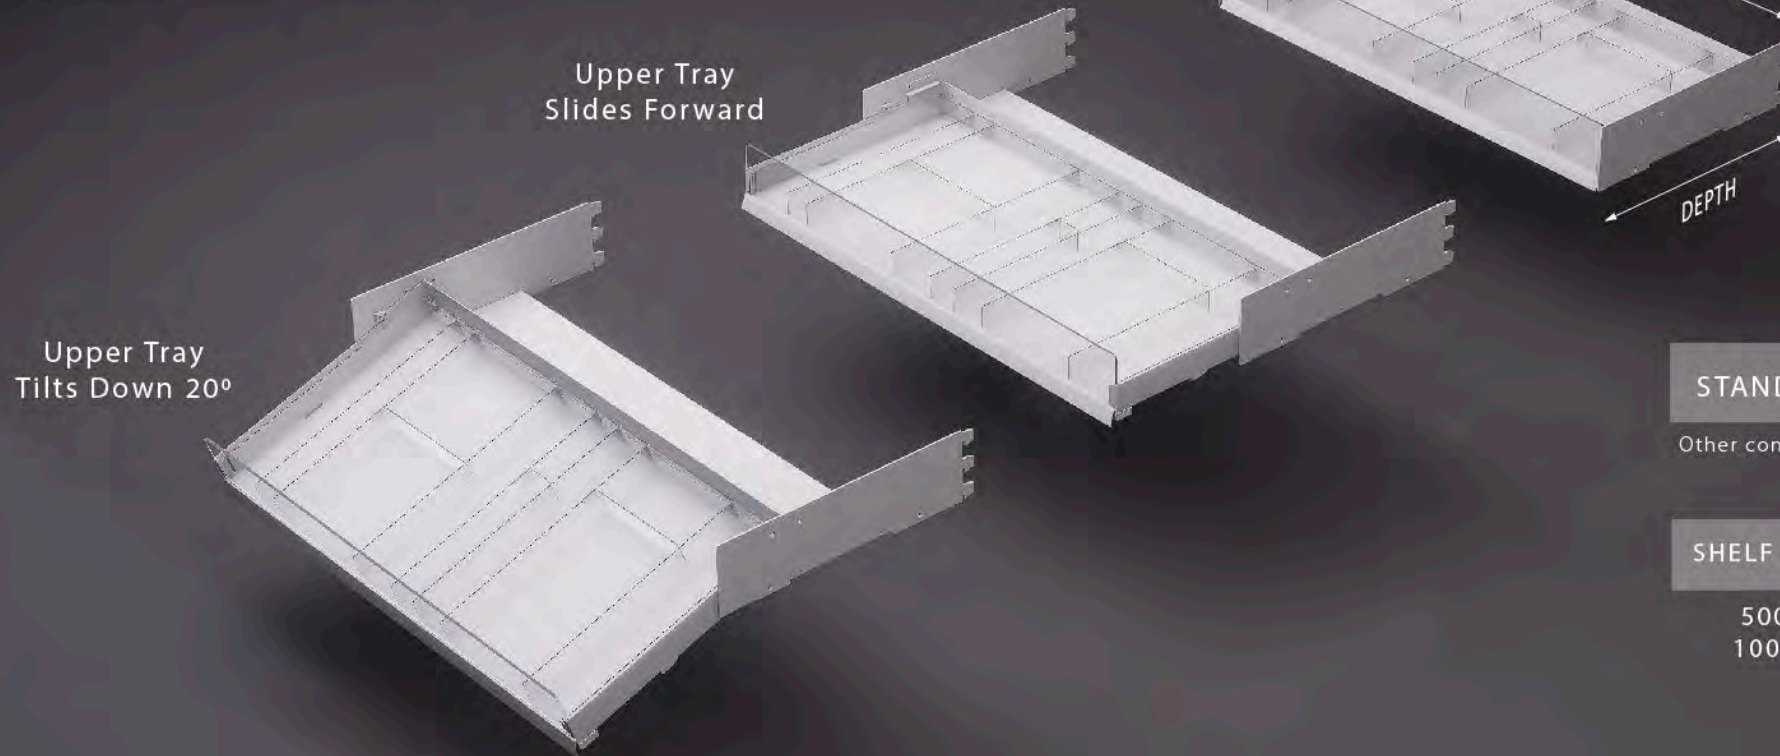

The VISTA Pharmacy Range provides a secure option to protect your higher value items in the store, using twin locks to prevent shelves from being accessed without the presence of a staff member.

Our Services

Transform your space with our comprehensive services.

At Maxim, we take pride in providing a seamless experience from concept to completion.

Our four core services ensure your vision is realized with precision and care.

Site Evaluation

Our process begins with an in-depth evaluation of your existing site.

We can create initial plans from your own dimensions, or our experienced team can visit your premises to assess your space, take detailed measurements, and identify any unique requirements.

This critical step allows us to understand your environment and gather the information needed to create a tailored solution just for you.

Design Process

Next, we bring your ideas to life during our collaborative design process.

Using advanced software and creative expertise, we develop innovative designs that reflect your style and functionality needs.

You'll receive an estimated cost, detailed renderings, and layouts, allowing you to visualize the outcome before production begins.

Your feedback is invaluable as we refine the design to perfection.

Manufacture

Once the design is approved, we move into the manufacturing phase.

Utilising high-quality materials and state-of-the-art technology, our skilled craftsmen bring your project to fruition.

We prioritize quality control at every stage, ensuring that every component meets our rigorous standards for durability and aesthetics.

Installation

Finally, our dedicated installation team will handle the setup with professionalism and care.

We coordinate with you to schedule the installation at your convenience, ensuring minimal disruption to your daily routine.

Our team ensures everything is perfectly placed and functional, leaving you with a stunning finished product that enhances your space.
